----- **End of commodity list** -----

**This permit is granted subject to the requirement that fees determined under section 592(1) are paid.**

Daniel Connor Subdelegate of the Director of Biosecurity	Date: 27 February 2026
---	------------------------

## Important information about this permit and the import of goods

**Note:** This permit covers Department of Agriculture, Fisheries and Forestry import conditions. It is the permit holder's responsibility to ensure all legal requirements relating to the goods described in this permit are met. While the permit holder should rely on their own inquiries, the following information is provided to assist the permit holder in meeting legal obligations in relation to the importation of the goods described in this permit.

### Information about this permit

#### Authority to import

The permit holder is authorised to import the goods described in this permit subject to the listed conditions specified in this permit.

#### Compliance with permit conditions and assessment and management of biosecurity risk

All imports are subject to biosecurity control and may be subject to biosecurity inspection on arrival to determine compliance with the listed permit conditions and to assess the level of biosecurity risk associated with the goods. Imports that do not comply with the import conditions specified in the permit may present an unacceptable level of biosecurity risk and may be subject to biosecurity measures that may include treatment, export or destruction at the permit holder's expense or forfeited to the Commonwealth.

Additionally, non-compliance with import permit conditions may constitute an offence or contravention of a civil penalty provision under section 187 of the *Biosecurity Act 2015*.

#### Change of import conditions

The Director of Biosecurity may, in accordance with section 180 of the *Biosecurity Act 2015* vary or revoke the conditions on a permit or impose further conditions.

### General information about importing goods

#### Notification of import

Notification of the import must be provided to the Department of Agriculture, Fisheries and Forestry for all imported goods other than goods imported as accompanied baggage or goods imported via the mail and not prescribed under *the Customs Act 1901*, or where other exceptions specified in the *Biosecurity Regulation 2016* apply. Notification must be provided in accordance with section 120 of the *Biosecurity Act 2015* and Part 1 of Chapter 2 of the *Biosecurity Regulation 2016*. Please refer to '[Sending your goods to Australia](#)' on the Department of Agriculture, Fisheries and Forestry website.

#### Provision of required documentation

It is recommended that all required documentation accompanies each consignment. Required documentation must be presented to the Department of Agriculture, Fisheries and Forestry for assessment. Airfreight or mail shipments should have all required documentation securely attached to the outside of the package, and clearly marked "Attention Department of Agriculture, Fisheries and Forestry". Documentation may include the permit (or permit number), government certification and invoice.

If the product description on the permit varies from the identifying documentation provided, the goods will not be released from biosecurity control unless evidence is provided to the biosecurity officer that the permit covers the goods in the consignment.

Any documentation provided must comply with the Department of Agriculture, Fisheries and Forestry's [minimum documentation requirements policy](#).

#### Non-commodity cargo clearance

In addition to the conditions for the goods being imported, non-commodity biosecurity risks are assessed including container cleanliness, packaging and destination concerns, and may be subject to inspection and treatment on arrival. Please refer to the [Non-Commodity Cargo Clearance](#) BICON case for further information.

#### Fees

Fees are payable to the Department of Agriculture, Fisheries and Forestry for certain services (see the *Biosecurity Charges Imposition (General) Regulation 2016*, Part 2 of Chapter 9 of the *Biosecurity Regulation 2016* and Part 3 of Chapter 11 of the *Biosecurity Act 2015*). Detail on how the department applies fees and levies may be found in the [Charging guidelines](#).

#### Compliance with other regulatory provisions

Goods imported into Australia may be subject to regulatory requirements under other legislation. It is the permit holder's responsibility to identify and ensure they have complied with all requirements of any other regulatory agency or advisory body prior to and after importation.

## Permit conditions

It is the importer's responsibility to ensure that the following permit conditions are met in relation to each consignment. Where more than one set of permit conditions is shown for a good please read each set of conditions to determine which applies to a specific consignment.

### 1. Retorted goods

This section contains permit conditions for the following commodity (or commodities):

1. Food items for human consumption Product Description: EXIN TRANS JAYA Bird's Nest 100g
--

#### 1.1. Biosecurity Pathway

##### Import conditions prior to arrival in Australian territory

- a. These conditions allow for the import of the following products only:

EXIN TRANS JAYA Bird's Nest 100g

- b. The retorted goods must meet the following import conditions:

1. The goods must have been hermetically sealed in a container before being heat treated to a minimum core temperature of 100°C, obtaining an F<sub>0</sub> value of at least 2.8.
2. The final product must be imported in the hermetically sealed (airtight) container in which it was retorted.
3. The hermetically sealed container must have a permanent mark with the identification number of the manufacturing establishment and batch code.
4. The goods must be retorted, commercially sterile and shelf-stable.
5. The goods must not contain transmissible spongiform encephalopathy risk material.

- c. The goods must meet biosecurity requirements.

To demonstrate compliance with this requirement you must present the following on a Health certificate:

- i. Either:

1. The product does not contain any bovine derived material (other than dairy ingredients, gelatine and/or collagen derived from hides and skins), or
2. All bovine materials (other than dairy ingredients, gelatine and/or collagen from hides and skins) were sourced from animals born, raised and slaughtered in countries assessed by FSANZ and assigned a [category 1 or 2 BSE risk rating](#).

[Country/ies must be listed on the health certificate provided]

[The health certificate must indicate the option that applies]

AND

- ii. Either:

1. The product does not contain any ovine or caprine derived material (other than dairy ingredients), or
2. The ovine and caprine material (other than dairy ingredients) does not include offal (and protein products derived from offal) from animals over

12 months of age which originated from countries or zones not considered free from scrapie.

[Offal includes skulls including brains, eyes, spinal cord, tonsils, thymus, spleen, distal ileum, proximal colon, lymph nodes, adrenal glands, pancreas, liver or bone marrow.]

[The health certificate must indicate the option that applies]

AND

iii. A statement that:

1. The final product has been retorted, and during the retorting process the product was heated to a minimum core temperature of 100 °C, obtaining an  $F_0$  value of at least 2.8.
2. The final product is imported in the hermetically sealed (airtight) container in which it was retorted. The hermetically sealed container is stamped or embossed with a permanent mark with:
  - 2.1. the identification number of the manufacturing establishment
  - 2.2. the batch code.

#### **Import conditions after arrival in Australian territory**

- d. These goods, or any derivatives, must not be distributed, sold or used for:
1. animal consumption
  2. environmental purposes (including use as bioremediation product or fertiliser)
  3. growing purposes, or
  4. veterinary therapeutic use.

#### **Additional information**

e. **Commercial administrative conditions**

Documents must be provided with each consignment which:

1. identify the consignment (if non-personal) e.g. entry number
2. identify all goods being imported as part of this consignment e.g. invoice or waybill or importer's manifest
3. describe the goods being imported (where not clear).  
e.g. 1: Product XRab = Purified protein derived from rabbits  
e.g. 2: Product AX = Synthetic antibiotic  
e.g. 3: Comte = Cheese.

f. Under the [Biosecurity Charges Imposition \(General\) Regulation 2016](#) and Chapter 9, Part 2 of the [Biosecurity Regulation 2016](#), fees are payable to the Department of Agriculture, Fisheries and Forestry for all services. Detail on how the department applies fees and levies may be found in the [Charging guidelines](#).

g. In addition to the conditions for the goods being imported, non-commodity concerns must be assessed including container cleanliness, packaging and destination concerns, and may be subject to inspection and treatment on arrival. Please refer to the Non-Commodity Cargo Clearance BICON case for further information.
